

AGRONATURA

Category: Canned food

business description: This difficult and impervious area is home to a cooperative of one hundred contributing members who cultivate and select (on approximately 300 hectares of woodland) more than 40 types of aromatic species to obtain infusions of wild rose, mallow, peppermint and camomile and herbal teas of lemon balm, hawthorn, alpine camomile. The product dedicated to the care of the body also includes a line of bath filters to aromatise the water and provide pleasant relaxation, and 100% pure essential oils obtained from the steam distillation of lavender, sage, coriander and camomile.
